# PRINCIPAL'S MESSAGE

---

community outreach.

St. Francis University College of Health and Allied Sciences (SFUCHAS) is a Catholic university dedicated to providing excellent health training, research, and healthcare services to rural communities. Since its establishment in 2010, SFUCHAS has experienced significant growth in student enrollment, faculty, research, infrastructure, and

To further its mission, SFUCHAS has introduced new programs such as Bachelor of Medical Laboratory Sciences (BMLS) and Master of Sciences in Public Health (MSPH), alongside existing programs like Doctor of Medicine (MD), Diploma in Pharmaceutical Sciences (DPS), and Diploma in Medical Laboratory Sciences (DMLS). The university also focuses on expanding clinical placement sites for MD and Allied Science students and internationalizing its faculty and student body to prepare graduates for global competitiveness.

This prospectus outlines the courses and activities offered by SFUCHAS for the academic years 2023/2024 to 2025/2026. It provides detailed information on course content, structure, teaching facilities, and staffing. SFUCHAS encourages students to participate in extracurricular activities, utilize sports and recreational facilities, and refer to the Student Handbook for additional information.

The university's success is attributed to the collaborative efforts of various stakeholders. SFUCHAS expresses gratitude to its

community members, friends, and well-wishers for their contributions to the institution's growth and reputation. For further inquiries, readers are encouraged to contact the Deputy Principal of Academic, Research, and Consultancy Services (DPARC).

## CHAPTER ONE:

# GENERAL INFORMATION

### INTRODUCTION

SFUCHAS was established in October 2010 as a Constituent College of Saint Augustine University of Tanzania (SAUT)

It is a Faith based, Not for Profit Higher Learning Institution under the Tanzania Episcopal Conference (TEC)

It was officially inaugurated on 12<sup>th</sup> June 2011 and granted a Certificate of Full Registration by the Tanzania Commission for Universities (TCU) in September 2013.

The rationale for establishing SFUCHAS was based on three facts:

Firstly, a need for the government to train and make available a competent and adequate number of health workers, especially in the rural areas

Secondly, need to promote and sustain public-private partnerships in the delivery of health services (National Health Policy, 2003)

Thirdly, need to support the government's effort to alleviate the severe Human Resources for Health crisis at all levels of the healthcare system.

SFUCHAS started its operations in 2010 at the Bishop Iteka Complex with limited training facilities and staff and an intake of

46 MD students; later on it established the Institute of Allied Health Sciences to train Laboratory and Pharmaceutical Science students.

SFUCHAS is strategically located in the rural town of Ifakara, a location that offers an intellectually stimulating learning, and research environment to staff, and students and service to patients

Ifakara town is home of nine health-related institutions famously known as the “Ifakara cluster”. The cluster is a renowned ‘Centre of Excellence’ that offers a unique opportunity for clients to combine and experience medical education, research, and clinical practice in one location (one-stop centre).

The institutions forming the Ifakara Cluster include:

St Francis University College of Health and Allied Sciences (SFUCHAS): A higher learning institution that trains, conducts research and provides community services

The Ifakara Health Institute (IHI): A renowned research institution that conducts health-related research

Tanzanian Training Centre for International Health (TTCIH): A mid-level training institution for diploma courses in clinical medicine and other related health disciplines

St. Francis Referral Hospital (SFRH): A referral hospital providing specialized medical services,

Edgar Maranta School of Nursing (EMSN) A training center of nurses at certificate and Diploma levels

Good Samaritan Cancer Hospital (GSCH)

Ifakara Innovation Hub (IIH)

Nazareth Leprosy Centre (NLC)

SolderMed; A Swiss Ngo for Health in Africa

Furthermore, SFUCHAS also works in collaboration with a number of health facilities that provide conducive teaching/learning environments for students' clinical practice to our students and the faculty. The teaching hospitals include St Francis Referral Hospital and Morogoro Regional Referral Hospital. Other facilities where students go for field work include district hospitals and health centers within the Morogoro region, but also in Dodoma at the Mirembe National Mental Health Hospital (MNMH)

In strengthening partnerships and collaboration with other institutions, SFUCHAS has had the opportunity to work with the highest caliber of partner institutions from North America, Europe and Asia on important projects. Specifically, SFUCHAS is collaborating with: the University of Colorado Denver- USA, Warwick University-UK, the University of Innsbruck – Austria, the University of Bologna -Italy, the University of Modena and Reggio Emilia - Italy, Sapienza University–Italy, British Columbia University- Canada.

Other non-university institutions include: Provisional Charitable Foundation – Canada, Doctors Friends of Ifakara – Austria, Bellagio Global Health Education Initiative, CUGH, INUKA,

USOKAMI Health Centre, IHI, SFRH, TTCIH and diverse Universities in Tanzania.

#### SFUCHAS VISION

To be an outstanding Catholic University by setting standards of excellence in health training, research and health care for the rural community.

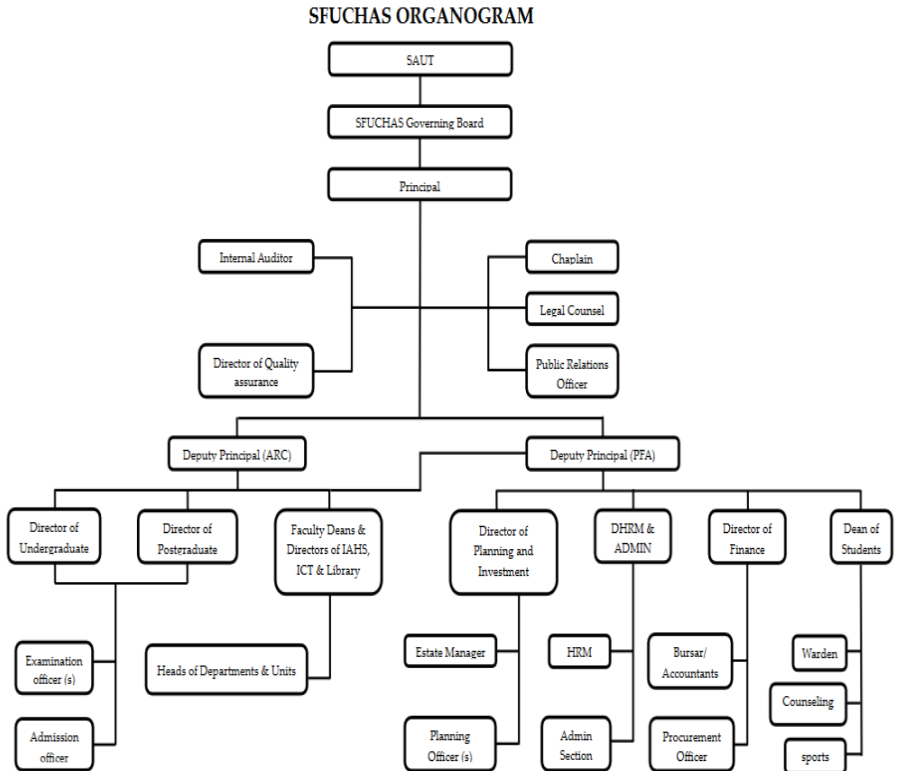

#### SFUCHAS MISSION

To transfer knowledge from one generation to another through teaching, and advance knowledge through research in rural community.

To create a competent human resource workforce with moral, spiritual and ethical values in rural Tanzania

To deliver quality services to the rural community in Tanzania.

1. **UNDERGRADUATE PROGRAMS**
2. DOCTOR OF MEDICINE (MD)
3. BACHELOR MEDICAL LABORATORY SCIENCES
4. DIPLOMA IN PHARMACEUTICAL SCIENCES
5. DIPLOMA IN MEDICAL LABORATORY SCIENCES
6. **POSTGRADUATE PROGRAMES**
7. MASTER OF SCIENCE IN PUBLIC HEALTH (MSPH)

## **CHAPTER TWO:**

### **FACULTY OF MEDICINE**

#### **2.1 INTRODUCTION**

SFUCHAS has only one Faculty, the Faculty of Medicine which has eight departments and hosts two undergraduate programs and one postgraduate program

##### **2.1.1 DEPARTMENTS**

- (i) Department of Anatomy and Pathology
- (ii) Department of Biochemistry and Physiology
- (iii) Department of Microbiology and Parasitology
- (iv) Department of Public Health
- (v) Department of Internal Medicine and Clinical Pharmacology
- (vi) Department of Obstetrics and Gynecology
- (vii) Department of Surgery and Traumatology
- (viii) Department of Pediatrics and Child Health

##### **2.1.2. UNDERGRADUATE PROGRAMS**

###### **2.1.2.1 DOCTOR OF MEDICINE (MD) DEGREE PROGRAM**

The Doctor of Medicine degree is a 10-semester (five years) competency-based program, leading to the MD degree of SFUCHAS. The first four semesters are largely devoted to basic

sciences and introduction to clinical medicine, but also fieldwork and community training. The remaining semesters are largely practical oriented and consist of junior and senior rotations in the teaching hospitals as well as community-based field training on community health and research methodology.

## CHAPTER THREE:

# INSTITUTE OF ALLIED HEALTH SCIENCES

### **3.0 INTRODUCTION**

The Institute of Allied Health Sciences (IAHS) is specifically for training middle level healthcare providers in Tanzania leading to award of Ordinary Diploma.

### **DIPLOMA PROGRAMS**

#### **Ordinary Diploma in Pharmaceutical Sciences Program**

This is a competency based six-semester Diploma in Pharmaceutical Sciences (DPS) Program. It aims to supply the country with adequately trained technologists in pharmacy who will work in various health facilities to provide basic pharmaceutical services.

#### **Ordinary Diploma in Medical Laboratory Sciences Program**

This is a competency based six-semester Diploma in Medical Laboratory Sciences (DMLS) Program. It aims to train health personnel capable of managing medical laboratory and diagnostic services.

## CHAPTER FOUR: FEES STRUCTURE

### **4.0 FEES STRUCTURE FOR UNDERGRADUATE PROGRAMS**

#### **4.1 INTRODUCTION**

Fees and other financial obligations are the sole responsibility of the student and, or the sponsor / guardian. The fees are payable in full at the beginning of each academic year with exception of tuition fee which is paid in instalment basis. All the money payable to the College shall be paid directly into the College account through the control number which is generated by a student from the Student Information Management System (SIMS). No student will be allowed to carry forward part of the fees into the following academic semester. Fees may be revised from time to time as will be notified through the SFUCHAS website, However, the revised fees structures will apply for new intake students. Fees paid to the College is non-refundable.

Students can apply for loans from the Higher Education Student's Loan Board (HESLB) or the Zanzibar Higher Education Loan Board (ZHELB).

The following fees structure is applicable for the 2024/2025 academic year (subject to review in subsequent year):
